¹ Scan speeds measured at 300 dpi (black-and-white, greyscale, and color). Actual processing speeds may vary depending on scan resolution, network conditions, computer performance, and application software. ² Requires the HP JetAdvantage Capture app. Download the app at hp.com/go/documentmanagement. Wireless performance is dependent on physical environment and distance from access point and may be limited during active VPN connections. Wi-Fi Direct[®] scanning requires the mobile device be connected directly to the Wi-Fi network of the scanner. ³ The HP ScanJet Enterprise Flow N9120 fn2 Sheet-feed Scanner earned a Highly Recommended rating from Buyers Lab in 2019. ⁴ "World's most secure scanning" claim is based on HP review of 2019 published features of competitive in-class printers. Only HP offers a combination of security features to automatically detect, stop, and recover from attacks with a self-healing reboot, in alignment with NIST SP 800-193 guidelines for device cyber resiliency. For a list of compatible products, visit hp.com/go/printersThatProtect. ⁵ For more information, see hp.com/go/printersecurityclaims. ⁶ Scanning from a mobile device requires the HP Wireless Adapter 100 (L2761A), which must be purchased separately, and the HP JetAdvantage Capture App. The app is available for mobile devices running Android[™] version 4.0 and higher, and can be downloaded from the Google Play[™] store. For more information, see hp.com/go/documentmanagement. ⁷ Wireless performance is dependent on physical environment and distance from access point and may be limited during active VPN or registered trademarks of Wi-Fi Alliance[®]. ⁸ Window application only. Depending on the OS and related software applications, the supported formats can be limited.
